INTRODUCTION

Welcome to the Vain whitepaper! The purpose of this whitepaper is to give you a **detailed explanation** of Vain Token to ensure transparency.

OUR MISSION

Vain is a token made to make planet earth a **better and greener place**.

Global climate change has already had **observable effects** on the environment.

Plant and animal ranges have shifted and trees are flowering sooner.

Now, you're probably wondering how a token can make the world a greener place. One simple answer; by **planting trees**.

ABOUT THE CHARITIES

With **Vain** being a cryptocurrency, we'll be looking to **donate** towards **non-profit organizations** with a focus on global **reforestation**, which also accept cryptocurrency donations. Your investment in **Vain Token** can help create a healthier climate! Every time we hit a goal, we will donate towards a tree planting organization.

There's plenty of **environmental charities** that are dedicated to making it easier for individuals and businesses to give back to the environment, create a healthier climate, protect biodiversity and help reforestation efforts around the world. All by **planting trees all over the world!**

Together as one, the community will decide where the donations go towards. With Vain, we can make a next level change!

TOKENOMICS

- 65% LIQUIDITY
- 30% BURNED
- 5% TEAM

TRANSACTION FEE 10%

- 5% Holders (4% redistribution, 1% flexible wallet)
- 5% Liquidity

When someone makes a transaction on Vain, **4%** of the transaction will get distributed to **ALL Vain Holders** proportional to the tokens that they hold. Vain will **automatically** get added to your wallet. The other **1%** goes towards a wallet that is flexible, this can be used for giveaways, directing tax towards a burn wallet thus reducing the circulating supply and much more. Any change will be made with the community.

The other **5%** will go to the **PancakeSwap Liquidity Pool (LP)**. On a weekly basis, 60% of the newly accumulated LP tokens will be removed from the Liquidity pool and a majority of this will be appropriated as proceeds to our chosen charities.

TOKEN EXTRACTION

Of the newly accumulated LP Tokens (the 5% fee) over a one-week cycle, 60% will be removed from the **PancakeSwap** Liquidity Pool: half are **BNB**, half are **Vain**. These tokens will then be appropriated to our overarching initiatives in public and transparent wallets, which will be vetted by the community as we go further.

Of the extracted **BNB**:

50% - Charity (donating to tree planting organizations is our main focus, other types of charities are also welcome, 12% of this is reserved for long-term special donations)

15% - Stability Reserve

20% - Marketing

15% - Business Development

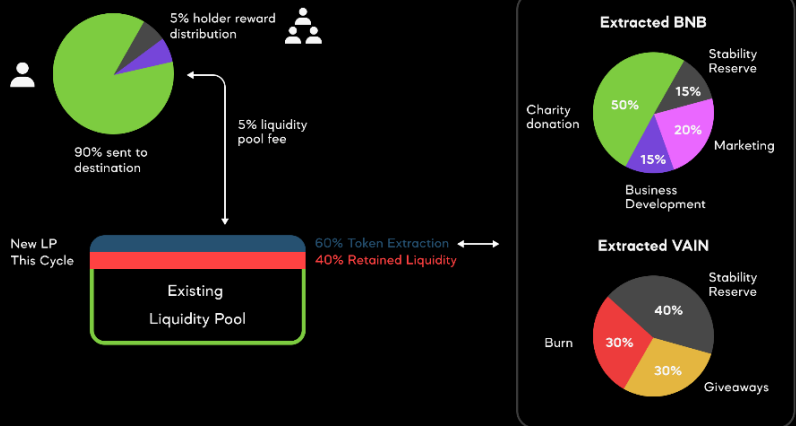

Of the extracted **Vain**:

30% - Burn

40% - Stability Reserve

30% - Giveaways

Transaction Fee Model

OUR TEAM

Vain is made by a **strong and passionate team** who strives to make planet earth a better and greener place.

We have designers, web developers, coders, writers and marketers while we're just getting started! Vain is a **movement** and we will keep moving till the end! Vain moderators will be active on **Telegram** to clear out fuds, answer questions and voice calls. Our team will listen to you and see how we could do better from your perspective.

Our next project is a **NFT marketplace** where we will be selling trees as a NFT. In the meantime we'll be organizing twitch livestream's, Q&A's, giveaways and so much more!

Liquidity will be **partially unlocked**, to ensure funds for our goals.

We've made sure that a whitepaper, roadmap, website, social media and a dev dox are made before launching.

We can't wait to welcome you in our community and we hope to see you here in the future.

MESSAGE FROM THE TEAM

We can't promise we'll save the world. But we will do our best to plant **as many trees as we can**, together, with your help.

We'll be donating to charities involved with climate change and set up a NFT marketplace where we will be selling trees we've planted.

75% of the profits from the NFT marketplace will go towards **charity**. By doing this we hope to make planet earth a greener and better place.
